This presentation contains forward-looking statements, which are any predictions, projections, or other statements about future events. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could materially differ because of factors discussed in today's earnings press release, in the comments made during the conference call, and in the Risk Factors section and other sections of our Form 10-K, Forms 10-Q, and other reports and filings with the Securities and Exchange Commission. We do not undertake any duty to update forward-looking statements.

We present constant currency information to provide a framework for assessing how our underlying businesses performed excluding the effect of foreign currency rate fluctuations. To present this information, current and comparative prior period results for entities reporting in currencies other than United States dollars are converted into United States dollars using the average exchange rates from the comparative period rather than the actual exchange rates in effect during the respective periods. The non-GAAP financial measures presented should not be considered as a substitute for, or superior to, the measures of financial performance prepared in accordance with GAAP. All growth comparisons relate to the corresponding period in the last fiscal year.
